

### DESIGN STATEMENT

The VR Gym merges advanced technology with wellness, offering immersive, personalised workouts in a futuristic environment. Inspired by Tron and Iron Man, it features neon lighting, sleek forms, and smart zones. Combining VR, AR, and AI, it transforms fitness into an engaging, inclusive experience across parallel-universe-inspired spaces.

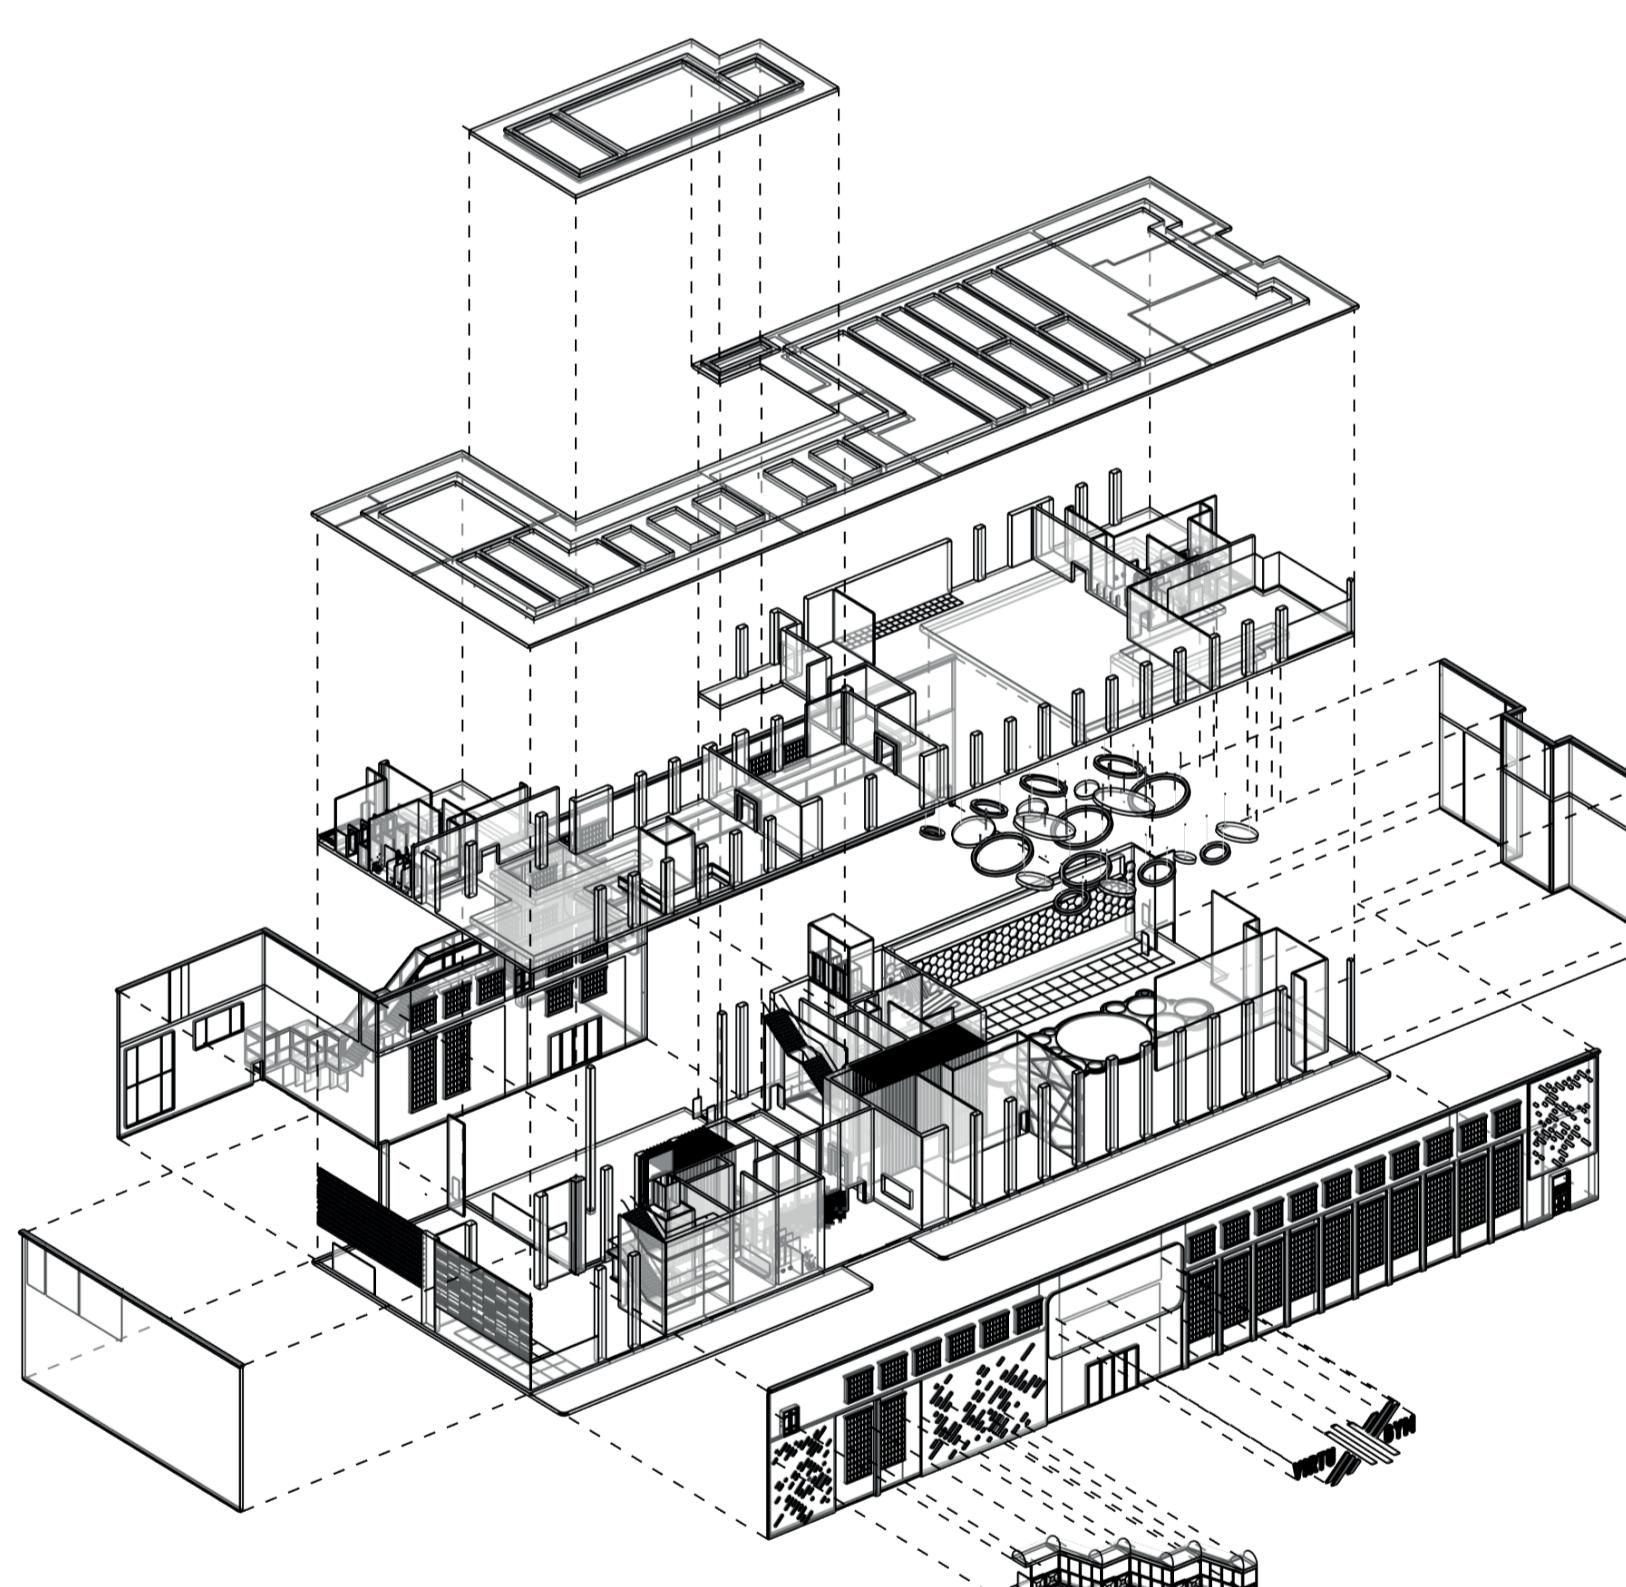

ISOMETRIC

### CONCEPT: PARALLEL UNIVERSE

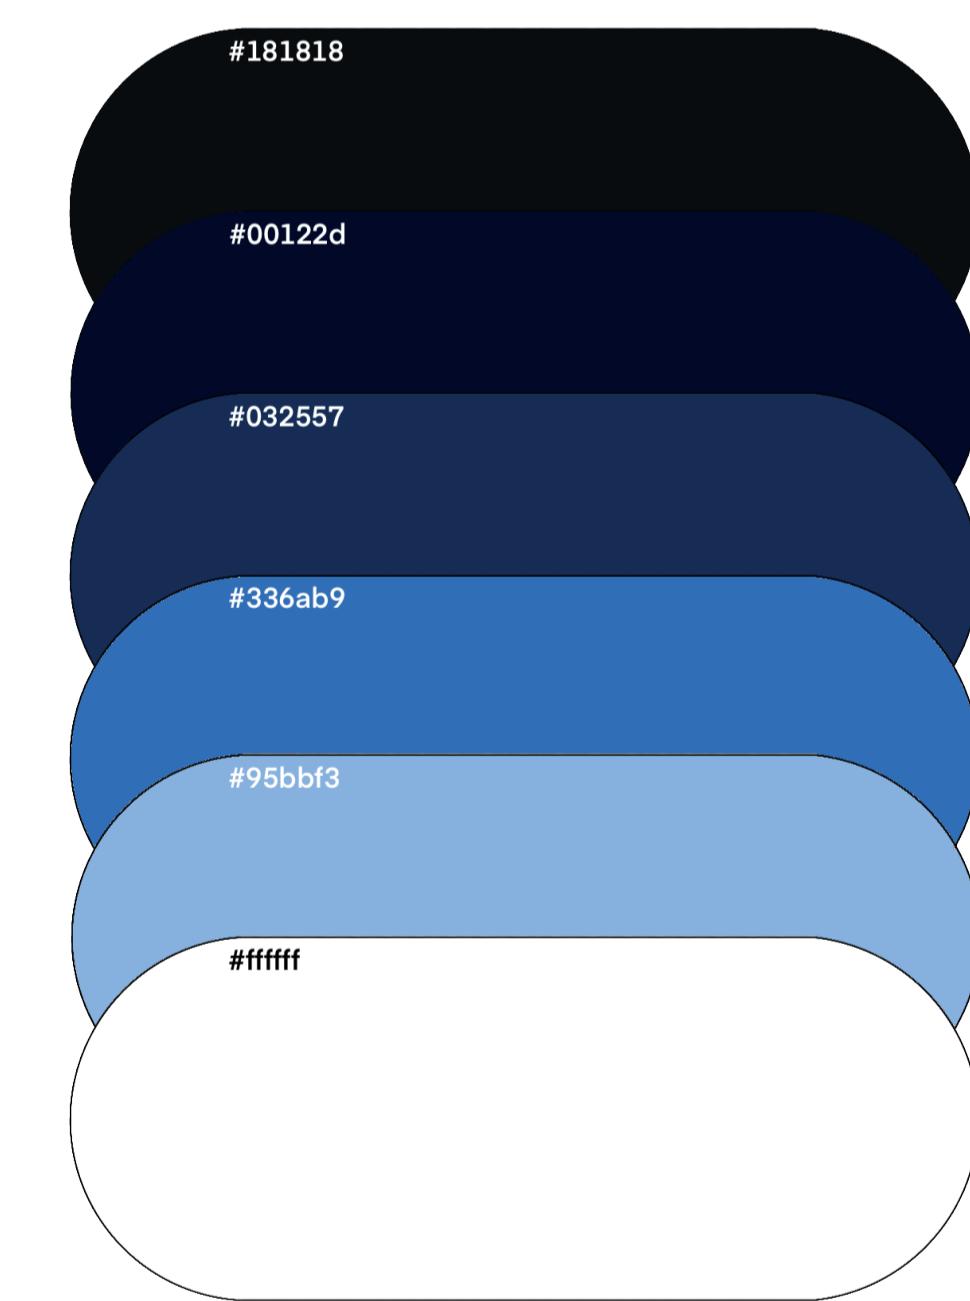

#### CONCEPT EXPLANATION

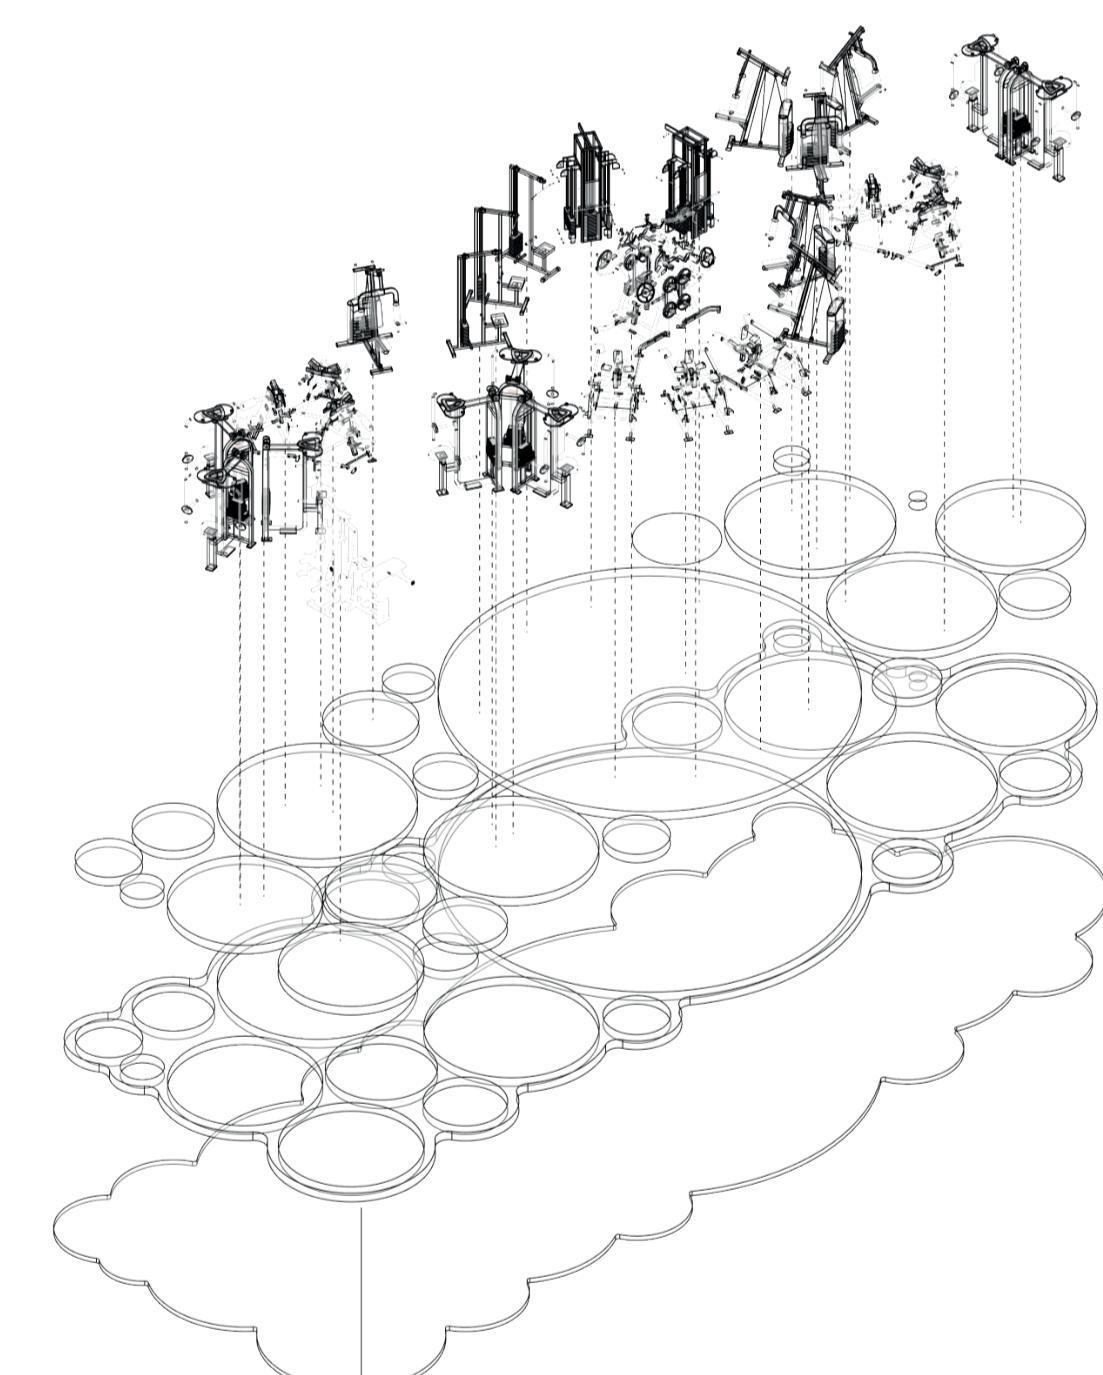

The VR Gym embodies the concept of a parallel universe, serving as a gateway to alternate realities where users escape the constraints of the real world and explore futuristic landscapes, from distant planets like Mars and Saturn to entirely new, unimagined worlds that redefine life, identity, and technology.
